

## 表目錄

表 2-1. Effect of FMAC on 0, 4, 8 weeks body weight of CCl <sub>4</sub> chronic treated rats .....	23
表 2-2. Effect of FMAC on liver SOD, Catalase, GSH-Px activity in CCl <sub>4</sub> chronic treated rats.....	24
表 2-3. List of liver genes expression in CCl <sub>4</sub> chronic treated rats.....	25
表 3-1. PCR primer sequences and expected size of amplified products.....	49
表 3-2. Effect of FMAC on DMN chronic treated rats liver SOD, Catalase, GSH-Px activities .....	50
表 4-1. Effect of FMAC on cyclophosphamide- or 5- fluorouracil-treated mice spleen weight and blood leukocyte .....	64
表 4-2. Effect of FMAC on body weight and urine volume of cisplatin treated rats.....	64
表 4-3. Effect of FMAC on cisplatin treated rats blood urea nitrogen and urine creatinine clearance .....	65
表 4-4. Effect of FMAC on contents of malondialdehyde (MDA), glutathione and protein in the kidney of cisplatin treated rats .....	65
表 4-5. Effect of FMAC on carrageenan induced rat paw edema.....	66
表 4-6. Effect of FMAC on plasma extravasation response to compound 48/80, bradykinin and prostaglandin E <sub>2</sub> in rat skin.....	66
表 4-7. Effect of FMAC on adjuvant arthritis in rats.....	67
表 4-8. Effect of FMAC on type I – IV allergic reaction.....	67
表 5-1. Effect of FMAC on small intestinal digestive enzymes in rats.....	76
表 5-2. Effect of FMAC on malondialdehyde、 glutathione and protein contents of stomach and small intestinal mucosa in rats.....	77

表 5-3. Accumulated urine after 6 hours oral administration of FMAC in rats .....	78
表 5-4. Sodium, potassium and chloride ions contents in accumulated urine after 6 hours oral administration of FMAC in rats .....	78
表 5-5. Effect of FMAC on mean blood pressure and heart rate in spontaneous hypertensive rats .....	79
表 5-6. Chronic effect of FMAC on mean blood pressure and heart rate in spontaneous hypertensive rats .....	80
表 6-1. Chronic effect of FMAC on lipid peroxidation in the brain and plasma of rats .....	90
表 6-2. Chronic effect of FMAC on Protein contents in the brain of rats .....	90
表 6-3. Chronic effect of FMAC on lipid peroxidation, glutathione and protein contents in the various tissues of rats .....	91
表 6-4. Chronic effect of FMAC on lipid peroxidation and glutathione content in the red blood cells of rats .....	93
表 6-5. Chronic effect of FMAC on activities of superoxide dismutase (SOD), catalase and glutathione peroxidase (GSH-Px) in the livers of rats .....	93
表 6-6. Chronic effect of FMAC on activities of superoxide dismutase (SOD), catalase and glutathione peroxidase (GSH-Px) in the red blood cells of rats .....	94
表 7-1. Body weight changes in rats orally treated with the filtrate of fermented mycelia of <i>Antrodia camphorata</i> (FMAC) for 28 days .....	101
表 7-2. Hematological findings in rats treated orally with the filtrate of fermented mycelia of <i>Antrodia camphorata</i> (FMAC) for 28 days .....	102

表 7-3. Blood chemistry in rats treated orally with the filtrate of fermented mycelia of <i>Antrodia camphorata</i> (FMAC) for 28 days .....	103
表 7-4. Urinary finding in rats treated orally with the filtrate of fermented mycelia of <i>Antrodia camphorata</i> (FMAC) for 28 days .....	105
表 7-5. Absolute and relative organ weights in rats treated orally with the filtrate of fermented mycelia of <i>Antrodia camphorata</i> (FMAC) for 28 days .....	107

## 圖目錄

圖 2-1. Effect of the FMAC on CCl <sub>4</sub> chronic treated rats liver weight.....	28
圖 2-2. Effect of the FMAC on spleen weight of CCl <sub>4</sub> chronic treated rats .....	29
圖 2-3. Effect of the FMAC on GPT activities of CCl <sub>4</sub> chronic treated rats ...	30
圖 2-4. Effect of the FMAC on GOT activities of CCl <sub>4</sub> chronic treated rats ....	31
圖 2-5. Effect of the FMAC on serum albumin (ALB) concentration of CCl <sub>4</sub> chronic treated rats .....	32
圖 2-6. Effect of the FMAC on serum A/G ratio of CCl <sub>4</sub> chronic treated rats .....	33
圖 2-7. Effect of the FMAC on prothrombin time of CCl <sub>4</sub> chronic treated rats .....	34
圖 2-8. Effect of the FMAC on liver protein contents of CCl <sub>4</sub> chronic treated rats .....	35
圖 2-9. Effect of the FMAC on liver lipid peroxidation (LPO) of CCl <sub>4</sub> chronic treated rats .....	36
圖 2-10. Effect of the FMAC on liver hydroxyproline contents of CCl <sub>4</sub> chronic treated rats .....	37
圖 2-11. Effect of the FMAC on liver glutathione contents of CCl <sub>4</sub> chronic treated rats .....	38
圖 2-12. The photomicrographs of liver section taken from rats and stained with hematoxylin-eosin. ....	39
圖 2-13. The photomicrographs of liver section taken from rats and stained with Masson's trichrome. ....	40
圖 3-1. Effect of FMAC on DMN chronic treated rats liver weight (A) and spleen weight (B).....	51

圖 3-2. Effect of FMAC on DMN chronic treated rats serum GOT (A) and GPT (B) activities.....	52
圖 3-3. Effect of FMAC on DMN chronic treated rats serum albumin (A) and A/G ratio (B) in rats .....	53
圖 3-4. Effect of FMAC on DMN chronic treated rats liver protein (A) and hydroxyproline (B) contents .....	54
圖 3-5. Effect of FMAC on DMN chronic treated rats photomicrography of liver section that stained with Masson' trichrome.....	55
圖 3-6. RT-PCR products analysis of FMAC effect on liver type I (A) and type III (B) collagen contents in rats with chronic liver injury induced by DMN .....	56
圖 3-7. RT-PCR products analysis of FMAC effect on liver type I (A) and type III (B) collagen contents in rats with chronic liver injury induced by DMN .....	57
圖 5-1. Chronic effect of FMAC on the caecal <i>Lactobacillus perfringens</i> contents in rats.....	81
圖 5-2. Effect of FMAC on the gastric acid secretion volume (A) and acid output (B) in pylorus-ligated rats .....	82
圖 5-3. Effect of FMAC on intestestinal motility (A) and gastric emptying (B) in mice.....	83
